## THE BALKAN WAR

### A Rumor of Peace is Sent Out.

But the Battles are Pushed by the Bulgarians Who Are Now Courageous.

Servians Win a Victory To-day and Kill and Wound Two Hundred Bulgarians.

#### IS IT PEACE

Rumors of a Servia-Bulgaria Armistice.

By Cable to The Sentinel.

LONDON, Nov. 19.—The rumor prevails that an armistice has been agreed upon between Servia and Bulgaria.

LONDON, Nov. 19.—Bulgaria is denouncing the Turkish frontier of troops and is sending all her available forces to the front to combat the Servians. Prince Alexander's success before Slivnitza has revived the courage of those going to the front and they undergo extreme hardships with remarkable fortitude.

BELGRADE, Nov. 30.—All accounts from Tzarabrod, the Servian headquarters, of the battle yesterday before Slivnitza, state that the Servians were unable to bring their full strength into the action and were thus defeated and compelled to withdraw to Dragoman Pass. The junction of the Danube, Drina and Shumalia divisions with the second class reserves will be completed to-day.

BELGRADE, Nov. 19.—A dispatch from Tzarabrod says that two Bulgarian battalions were defeated to-day in an engagement with the Servians on the road between Bresnick and Ponik. The Bulgarians lost 200 men killed and wounded. The Servians captured sixty prisoners and a quantity of ammunition.

BELGRADE, November 18.—Further details of the capture of Bresnick state that the Servians carried eighteen lines of entrenchments and captured 161 prisoners with a number of rifles. The Bulgarian commander at Bresnick fled, leaving his military papers behind him. The Bulgarian volunteers also fled.

#### The Reichstag Opened.

By Cable to The Sentinel.

BERLIN, Nov. 19.—The reichstag was opened to-day. In his imperial speech the emperor said he confidently hopes that the Balkan conflict will not disturb the peace of Europe and trusts that the signers of the Berlin treaty will succeed in having respect for the treaties by people rendered independent by them.

LONDON, November 18.—The Daily News has a dispatch from Sofia, confirming the report of a Bulgarian victory. The Servians lost ten guns and 556 horses, and it is estimated that 3,000 Servians were killed and wounded. The Bulgarians on Tuesday captured two hundred Servian cavalry. The Bulgarians have again repulsed attacks on Dragoman. The Daily Telegraph says it is almost certain that Greece will go to war. A captain of the Greek navy has started for London to purchase men-of-war. Dispatch from Sofia says: "Troops are arriving from Roumelia. Twenty thousand Servians were engaged yesterday near Slivnitza, while there were only 15,000 Bulgarians in the engagement. There was a desperate fight at Slivnitza to-day. The Bulgarians forced the Servian right wing at the point of the bayonet for several miles, with great losses. It is reported that the Servians fired upon the Red Cross ambulance. A militia force from Wieden has made a successful inroad into Servia, capturing 150 prisoners. The following Servian account is from Farabrad: The Servians found Bulgarians of unexpected strength at Slivnitza. The Servians after continuous fighting for eighteen hours are slowly pressing Prince Alexander towards Sofia, the Bulgarians disputing every inch.

#### The Billiard Match.

By Telegraph to The Sentinel.

CHICAGO, November 18.—The third game in the billiard tournament to-night, between George F. Slosson and Jacob Schaefer, was witnessed by an enthusiastic crowd. Slosson led off and made several good runs. Schaefer seemed nervous and failed to do as well as it was expected he would. Slosson played a very fine game. Later Schaefer improved in his play,

but could not overcome Slosson's lead and the latter won in the thirty-fourth inning, having 600 points to Schaefer's 501. Highest run 85, by Schaefer.

An analysis of the flour found enough arsenic in the barrel to kill the entire family.

PHILADELPHIA, November, 18.—An examination of the brain of John McCullough, was made by doctors, Hugo Engle, Charles K. Mills and E. A. Russell. It resulted in confirming the diagnosis made by Dr. Engle, after the actor's return from the Bloomingdale asylum and showed there was a disease of the blood vessels of the brain, due to blood poisoning. Morbid conditions were found to explain the symptoms evinced during life.

NEW YORK, November 18.—The congressional committee inquiring into facilities of the country for the manufacture of heavy cannon and armored ships, met again to-day and heard statements from the owners of various plants as to what they would undertake to do. ## CIVIL-SERVICE REFORM.

Civil-service reform comes hard, because the evils against which it is aimed have been long entrenched in the body politic and can only be removed by heroic treatment. Because an abuse is of long standing, however, is no reason why it should be tolerated, and the assertion of such a principle is without rhyme or reason. Diseases which afflict the human body are not looked upon as blessings because long endured, nor should those which afflict the state be considered so. Everything which is inimical to the most perfect working of the body and government must be gotten rid of. Such, at least, is the belief of Mr. W. D. Murphy of No. 310 Vandeventer street, Indianapolis, who has recently been cured of rheumatism of twenty-five years' standing by that great remedy, **Athliphoros**. Age gave the disease no charm in his eyes, and he swept it away at the first opportunity. He himself tells all about the matter in this way:

"My rheumatism dates way back about twenty-five years. I first contracted it in the war, in which I served four years and six months. After returning home from service the disease seemed to assume a periodical form. I would have at least two severe attacks every year, but even between these attacks I would suffer all the time. These attacks prevented me from getting about, and many times I could not walk or get out of bed. They would catch me in the legs so that after standing while I would feel suddenly weak and in danger of falling."

"Was it during one of these attacks that you used **Athliphoros**?" Mr. Murphy was asked.

"Yes; that's the time and that's when it did its work for me. I saw it advertised and sent to B. Brehm, the druggist on Columbia avenue, for a bottle. It was in the afternoon I took the first dose and then at night I took another. I slept soundly that night. The next morning when I awoke I had no pain. I took a few more doses, only using about two-thirds of a bottle altogether, and my rheumatism was all gone. That is over a year ago and I have only felt a little twinge of the pain since, but nothing to speak of."

"Do you know of any others who have used **Athliphoros**?"

"Yes. I have recommended it to many different persons. My confidence was so great in the medicine that in several instances I have bought bottles of it and given them to people, saying at the time that if it did not do its work they need not pay for it; but there is not a single case in which I did not have my money within a week. There is Mrs. Wright, an aged lady of seventy, living a few miles from here, who, after suffering from rheumatic pains for fifteen years, was finally cured by three or four bottles of **Athliphoros**. I recommended another lady, who was supposed to be suffering from dyspepsia, but who in reality had neuralgia of the stomach, to try **Athliphoros**, and it soon cured her. My neighbor, who had a severe attack of neuralgia, his face being swollen out of all shape, was cured by a few doses. My confidence in **Athliphoros** is very strong, and I believe that if any one suffering with rheumatism or neuralgia will take it right it will cure ninety-nine cases out of a hundred. It is worth \$100 a bottle to every sufferer from rheumatism."

If you cannot get **Athliphoros** of your druggist, we will send it express paid, on receipt of regular price—one dollar per bottle. We prefer that you buy it from your druggist, but if he hasn't it, do not be persuaded to try something else, but order at once from us, as directed. **ATHLIPHOROS CO.**, 112 Wall Street, New York.

OFFICIAL PAPER COUNTY AND CITY.

THURSDAY, NOV. 19, 1885.

HON. JOHN KELLY is to go to Florida for the winter.

A COMPANY of capitalists have been formed to drill for natural gas at Richmond.

A. M. KELLY, of foreign mission fame, has removed from Richmond, Va., to New York.

C. R. POLLARD, of Delphi, Ind., wants to be chief justice of Dakota. Indiana is not a bit modest.

SAM JONES, the southern revivalist, will be the leading attraction at the Island Park assembly next season. The Rome City meeting proposed to sell \$10 shares of stock in the assembly.

JUDGE E. V. LONG, recently appointed by President Cleveland as chief justice of New Mexico, will leave for Santa Fe about December 1. His family will remain at Warsaw, at least during the coming winter.

The county democracy controlled the presidential appointments in New York, but they did not elect one of their candidates. Tammany was snubbed by the administration and elected its candidates. This is significant.

JEFFERSONVILLE, in this state, has lived within her income for several years past, notwithstanding the heavy expense incident to the levee. The city has paid in the last three years \$6,700 of her bonded debt and \$9,000 of a floating debt and funded \$73,000 of her bonded debt at a lower rate of interest.

THERE will be a caucus of the republican senators a little while before congress meets, to decide upon the course to be followed with regard to President Cleveland's appointments. The leaders might sensibly say, "it is none of our business." This is a democratic administration and the party will have to account for its stewardship.

NOTRE DAME university is not asked to participate in the state oratorical contest, as its standing is not to the liking of the "literati" of Indiana. This is the highest possible tribute to Notre Dame, whose aim has been to send out scholarly and practical young men, to battle with astern world, and not infinitesimal molecules or a height of oratory that assumes to darken even the fame of Mr. Clay.

THE Chicago News says: "Mr. James Whitcomb Riley, the Indiana poet-humorist, is thirty-two years old. He looks like a dapper young Episcopal clergyman. His hair is yellowish, his eyes a china blue and his complexion pallid. He wears no beard or mustache. He has the prominent nose of a successful jurist, but his mouth is the ideal mouth of a comedian. In conversation he has the genuine Hoosier twang, with certain intonations that are strongly suggestive of the Yankee."

ARISTOCRATIC MURRAY Hill, New York, furnishes this story: Miss Cowling, on the occasion of the Van Gilder wedding, gave the bride a beautiful vase, which chanced to be just like another received from another source. In a fit of economy one day Mrs. Van Gilder sold this vase, without giving the donor's name, to a friend, Mrs. Holland, from whom she exacted a promise never to tell. Recently Miss Cowling was married, and she was not a little surprised to find her present to Mrs. Van Gilder returned to her as a present from Mrs. Holland. These three ladies are now strangers to one another.

THE Warsaw Summer Resort company is asking bids for contractors for digging the proposed steamship canal between Pike and Center lakes near the Hoosier resort. The canal will be something more than a quarter of a mile long, and when completed it is the intention of the company to set out rows of maple trees on each side, and in all probability preparation will also be made for a carriage drive on one bank of the canal, the whole distance. The company is ready to take orders every day from parties

proposing to erect summer cottages, and boat houses on the lakes in Kosciusko county.

AN enterprising gentleman of Chicago, finding life earned by the sweat of his brow irksome, took to making patent medicines, and instead of using those reliable old poisons that experience has shown will kill the patient with the least possible irritation, has created his compounds from old rocks, paper collars, gum shoes, and the like. That he has been arrested goes far to discredit the reputation of Chicago for exalted liberality, says the Indianapolis Sentinel. That a pair of old long-worn socks, bound over the face of a patient, will cure the worst case of hay fever or cold in the head, has long been known to the old ladies of the passing generation, and without wishing to influence the Chicago Daniel who will pass in judgement on the case, we are of the opinion the indictment will fail. That the end of usefulness of an old pair of socks should come when they may be withdrawn from human feet, or that a large army of Chinese people should be maintained in washing them, is opposed at once to the utilitarian spirit of the age, and to a true practice of economy, the more so as the curative virtues of the socks are at their maximum only after three or four weeks of constant wear. The same may also be said of old paper collars. It may be demonstrated that soap and water are the most persistent enemies to the health of people known to this civilized age. No one has ever heard of a tramp who ever changed his clothes after they had once been put on, until the day came that they longer refused to hold together, and no one ever heard of a tramp being sick or dying. That the connection of these phenomena is absolute, no one who has ever closely investigated the matter will deny. That the practice of constantly using soap and water and clean clothes should be discouraged by legal enactment, is becoming every day more apparent. Gum-shoe bitters would at once remove the irritability of that portion of our fellow-citizens who object to gin cocktails near election time, and do away with the necessity for agitating the raising the saloon license to \$100. Old Sock Cough Mixture would break up the fatal prevalence of cough malady that invariably begins at 12 o'clock Saturday night and lasts till Monday morning, and render it necessary for the sufferer every Sunday to fumble around the back door of places where cough medicines are usually sold. In fact, the objections to these remedies are so puerile and the advantages so clear that we are astonished that a city like Chicago, where the necessity of such a medicine is so great, should fail to appreciate them.

WASHINGTON (D. C.) letter: There are a number of workmen at present engaged in repairing the damage done to the Washington Monument by the stroke of lightning last summer. As there was only one small window left at the base of the apex when the monument was declared completed, a number of people have wondered how the network of rope rigging which now reaches to the point of the apex was placed in position. This is the way the work was done: A strong board was run out of the window in question. Then a cool-headed workman climbed out on this board and stood up straight upon it, and with a rope noosed at the end tossed it up until he caught it upon the peak of the monument. After he had this rope caught he then climbed up hand over hand to the peak and arranged a sliding support for himself, by which he raised and lowered himself at will, to twist the ropes around the top. He did this work at the enormous height of 550 feet as coolly as if he were working upon the solid ground. At no time during his work was he safe if he had lost his head or presence of mind for a second.

HOWARD PAUL, who has been traveling in Wales, thinks that the Welsh waiter is an oddity. To one of those waiters he propounded the question, "Do you have a table d'hôte here?" The waiter's answer was, "Well, no," half apologetic, "at least not unless you order it!"—which reminds Mr. Howard Paul that once when he was sitting down to dinner at a country hotel he said to the waiter, "Could I have a serviette?" "Yes, sir, certainly," was the prompt reply; "would you like it broiled or fried?"

It Won't Pay  
after so much labor and capital has been expended to build up this medicine, to allow it to deteriorate. You can take Simmons Liver Regulator with perfect faith, as it is made by no adventurers who pick up the business of concocting medicines, but by educated, practical druggists who have made the study of medicine and its compounds the labor of a lifetime. The care, precision and neatness and perfection exhibited by the very appearance of the Regulator proves it to be the best prepared medicine in the market, and J. H. Zeilin & Co. fully carry out their motto: "Pruissima et Optima (purest and best)."

Cigarette smokers who are willing to pay little more than the price charged for the ordinary trade cigarettes, will find the Richmond Straight Out Cigarettes far superior to any others.

## CRIMINAL.

James Little, the Railroad Swindler, Sent Up for One Year.

James Little, the man arrested for trying to obtain money from the Grand Rapids and Indiana railroad company by forged affidavits of having received injuries at Fort Wayne, was arraigned before Judge Parrish yesterday, at Grand Rapids, pleaded guilty and expressed great contrition to the judge for his misdeeds; said he wanted to be sentenced—it was just—and vowed by the grace of God to try and do better in the future. In consideration of which Judge Parrish sentenced him to one year in the Jackson state prison. Little's scheme was exposed in THE SENTINEL yesterday.

There were all the evidences of a coming storm, the very air vibrated with the odor of danger; but when the kind father took from his pocket a bottle of Dr. Bull's Cough Syrup then came a calm, for the baby had the croup and would now get well.

## Superstitious Men.

Men in dangerous positions are usually superstitious. This may sound strange, but it is nevertheless true.

Railroad men as a general rule are very superstitious. Long ago some one was killed on the Pittsburgh track, east of here, and ever since the engineer, who ran over him, retired from the road on account of a fear of some terrible misfortune overtaking him, there has been this dread and terror of ghosts. Trainmen tell in all earnestness about the wierd, strange lights have been seen at night. The flashing of a lantern in unseen hands, the hollow, mocking laughs, the low whisper, and the fitting of white figures here and there, all tend to make one's hair stand on end as the train passes through these places where accidents resulted in death. Only a few days ago a brakeman was killed west of here on the Pittsburgh road. He spoke of the fate of two acquaintances to a fellow brakeman and said, "I will go next. I have seen myself mangled in a dream."

Catarrh is a constitutional disease. Hood's Sarsaparilla is a constitutional remedy. It cures catarrh. Give it a trial.

The late Horace B. Clafin, millionaire merchant of New York, was an apple-cheeked old man, with snowy hair.

Hunt's Remedy is purely vegetable and is made expressly for all diseases of the kidneys.

Extraordinary success everywhere. A sure cure for all kidney diseases is Hunt's Remedy.

For early loss of physical power. A sure cure is found in Hunt's Remedy. Never fails.

"What is the worst thing about riches?" asked the Sunday school superintendent. And the new boy said: "Not having any."—Ex.

I have been afflicted with catarrh for 20 years. It became chronic, and there was a constant dropping of mucous matter from the roof of my mouth. It extended to my throat, causing hoarseness and great difficulty in speaking, indeed for years I was not able to speak more than thirty minutes, and often this with great difficulty. I also, to a great extent, lost the sense of hearing in the left ear, and of taste. By the use of Ely's Cream Balm all dropping of mucous has ceased and my voice and hearing has greatly improved.—Jas. W. Davidson, attorney at law, Monmouth, Ill.

MR. A. HIGGINS, of Wyoming, N. Y., says he had the piles for nearly 40 years, and was cured by using Gilmore's Pile specific.

WHY WILL YOU SUFFER from ague and malaria when Gilmore's Aromatic Wine will cure you.

GILMORE'S NEURALGIA CURE is a positive cure for neuralgia in the face, side and stomach.

JOHN H. YATES, of Batavia, N. Y., says:

"I cheerfully commend your AROMATIC WINE. It did new life and vigor send. Through this weak frame of mine. It did for all my stomach ills. More than a doctor and his pills." For sale by Dreier & Bro's, and G. H. Gumpfer.

Just give R. H. Douglass & Sons' Capicum Cough drops a fair trial they will relieve your cough instantly. Thousands testify to this.

## EPITHELIOMA! OR SKIN CANCER.

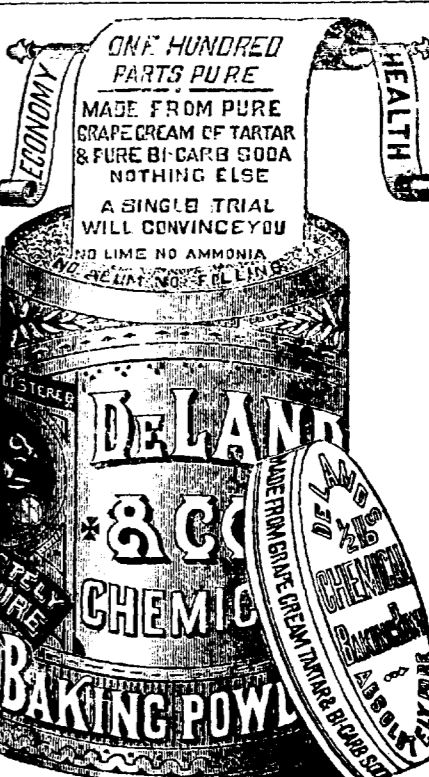

For seven years I suffered with a cancer on my face. All the simple remedies were applied to alleviate the pain, but the place continued to grow, finally extending into my nose, from which came a yellowish discharge very offensive in character. It was also intensely itchy and annoyed me a great deal. About eight months ago I was in Atlanta, at the house of a friend, who strongly recommended the use of Swift's Specific that I had heard about. I made an effort to procure it. In this I was successful, and began its use. The influence of the medicine at first was somewhat aggravated, but I persevered, and the inflammation was allayed, and I began to improve after the first few bottles. My general health has greatly improved. I am stronger, and able to do any kind of work. The cancer on my face began to decrease and the ulcer to heal, until there is not a vestige of it left—only a little scar marks the place where it had been. I am ready to answer all questions relative to this cure.

Mrs. JOSEPH A. McDONALD, Atlanta, Ga., August 11, 1885.

I have had a cancer on my face for some years, extending from one cheek bone across the nose to the other. It has given me great deal of pain, at times burning and itching to such an extent that I was obliged to get it cured. I commenced using Swift's Specific in May, 1885, and have used eight bottles. It has given the greatest relief by removing the inflammation and restoring my general health. W. BARNES, Knoxville, Iowa, Sept. 8, 1885.

For many years I was a sufferer with cancer of the nose, and having been cured by the use of S. S. S., I feel constrained to do some duty to suffering humanity to make this statement of my case. With the 14th bottle the cancer began to heal rapidly, and soon disappeared, and for several months there has been no appearance of a sore of any kind on my nose or face, neither is my nose at all tender to the touch. I have taken about the two dozen bottles S. S. S., and am soundly cured, and I know that S. S. S. effected the cure after every known remedy was tried and had failed. ROBERT S. SMEDLEY, Fort Gaines, Ga., May 1, 1885.

I had heard of the wonderful cures of Swift's Specific, and resolved to try it. I commenced taking it in April, 1884. My general health was much improved, and the cancer which was in my breast continued to grow slowly but surely. The bunch grew and became quite heavy. I felt that I must either have it cut out or die. But it commenced discharging quantities of almost black, thick blood. It continued healing around the edges until February, when it was completely healed up and well. BETTY WOOD, Cohasset, Plymouth Co., Mass., July 13, 1886. Swift's Specific is entirely vegetable, and seems to cure cancers by forcing out the impurities from the blood. Treatise on Blood and Skin Diseases mailed free. THE SWIFT SPECIFIC CO., N. Y., 157 W. 24th St. Drawer 3, Atlanta, Ga.

It is asserted that the Vanderbilts  
have absorbed three-fourths of the  
Nickel Plate stock outside of the amount  
held by the Lake Shore. There is no  
doubt that a fair interest guarantee will  
follow to the holders of the first mort-  
gage bonds.

The indications for the lower lake  
region, as reported by the weather  
bureau at Washington to THE SENTINEL,  
are as follows: Colder clearing weather,

### THE SALINGER CASE.

The Assignee Qualifies—More  
Replevin Suits.

The Salinger assignment at Lafayette,  
still continues to be the topic of con-  
versation in business circles. A majority  
of the creditors held a meeting at Cin-  
cinnati yesterday but did not decide upon  
any line of action which virtually re-es-  
tablishes the status quo ante, so to speak.  
A half dozen replevin suits were institu-  
ted by creditors yesterday, but the as-  
signee gave bond for the amounts claim-  
ed and held the goods. Yesterday morn-  
ing Mr. Levering qualified as assignee,  
his bond being fixed at twice the amount  
of the assets, \$40,000. His sureties are  
Ed Asher, J. H. Sickler, John Sattler,  
T. A. Stuart, J. H. Adams, A. Hen-

## THE BALKAN WAR

### A Rumor of Peace is Sent Out.

But the Battles are Pushed by the Bulgarians Who Are Now Courageous.

Servians Win a Victory To-day and Kill and Wound Two Hundred Bulgarians.

### IS IT PEACE?

Rumors of a Servia-Bulgaria Armistice.

By Cable to The Sentinel.

LONDON, Nov. 19.—The rumor prevails that an armistice has been agreed upon between Servia and Bulgaria.

LONDON, Nov. 19.—Bulgaria is denouncing the Turkish frontier of troops and is sending all her available forces to the front to combat the Servians. Prince Alexander's success before Silivritza has revived the courage of those going to the front and they undergo extreme hardships with remarkable fortitude.

BELGRADE, Nov. 30.—All accounts from Tzarabrod, the Servian headquarters of the battle yesterday before Silivritza, state that the Servians were unable to bring their full strength into the action and were thus defeated and compelled to withdraw to Dragoman Pass. The junction of the Danube, Drina and Sarmatia divisions with the second class reserves will be completed to-day.

BELGRADE, Nov. 19.—A dispatch from Tzarabrod says that two Bulgarian battalions were defeated to-day in an engagement with the Servians on the road between Bresnik and Posik. The Bulgarians lost 200 men killed and wounded. The Servians captured sixty prisoners and a quantity of ammunition.

BELGRADE, November 18.—Further details of the capture of Bresnik state that the Servians carried eighteen lines of entrenchments and captured 161 prisoners with a number of rifles. The Bulgarian commander at Bresnik fled, leaving his military papers behind him. The Bulgarian volunteers also fled.

### The Retching Opened.

By Cable to The Sentinel.

BERLIN, Nov. 19.—The reichstag was opened to-day. In his imperial speech the emperor said he confidently hoped that the Balkan conflict will not disturb the peace of Europe and trusts that the signers of the Berlin treaty will succeed in having respect for the treaties by people rendered independent by them.

LONDON, November 18.—The Daily News has a dispatch from Sofia, confirming the report of a Bulgarian victory. The Servians lost ten guns and 556 horses, and it is estimated that 3,000 Servians were killed and wounded. The Bulgarians on Tuesday captured two hundred Servian cavalry. The Bulgarians have again repulsed attacks on Dragoman. The Daily Telegraph says it is almost certain that Greece will go to war. A captain of the Greek navy has started for London to purchase men-of-war.

Dispatch from Sofia says: "Troops are arriving from Roumelia. Twenty thousand Servians were engaged yesterday near Silivritza, while there were only 15,000 Bulgarians in the engagement. There was a desperate fight at Silivritza to-day. The Bulgarians forced the Servian right wing at the point of the bayonet for several miles, with great losses. It is reported that the Servians fired upon the Red Cross ambulance. A militia force from Wedden has made a successful inroad into Servia, capturing 150 prisoners. The following Servian account is from Farabrad: The Servians found Bulgarians of unexpected strength at Silivritza. The Servians after continuous fighting for eighteen hours are slowly pressing Prince Alexander towards Sofia, the Bulgarians disputing every inch.

but could not overcome Shinn's lead and the latter won the thirty-fourth inning, having 600 points to Schaefer's 501. Highest run 85, by Schaefer.

Ely, of Chicago, to-day, breaking one of her ribs and inflicting, it is feared, fatal injuries. Harrison's father, one of the richest farmers in Sangamon county, was buried yesterday. The attack grew out of a dispute over the dead man's property, the family not having been able to find a will which they believe he made.

DENVER, Col., Nov. 19.—Colorado, who with fourteen lodges and 500 ponies, is camped on Tampa river, twenty-five miles above Cross mountain, burned the cattle ranges along the trail, leaving 75,000 head of cattle without feed. The Indians are slaughtering thousands of elk, deer and antelope for hides, leaving the carcasses to rot. Settlers are wild over the destruction of game and the ranchers have assembled and will order Colorado to leave and in case of his refusal, a general extermination is expected. The Indians are well supplied with rifles and ammunition.

### Cocaine a Poison.

By Telegram to The Sentinel.

### The Burmese War.

By Cable to The Sentinel.  
REYKJAVIK, Nov. 19.—General Pendergast, commanding the British expeditionary force, has strongly garrisoned the town of Mibla. He expects to reach Mandalay on Tuesday next.

### OLD FELLOWS.

The Grand Lodge and 14 Financial Standing—The Patriarchal Circle Dissolved.

An adjourned session of the grand encampment was held yesterday, at Indianapolis, for finishing up the work and the resolution providing for a reduction of the degree membership to \$2 a degree was adopted.

The annual meeting of the Mutual Aid association was also held and the report of the secretary, John W. McQuiddy, showed that the membership in the first division was 2,711, in the second, 1,561, and in the third, 80. The total receipts of the various divisions for the year were \$78,165.70, \$19,228.30 and \$140 respectively, and the amount remaining on hand are \$20,748.31, \$7,541.26 and \$172.45. The total number of deaths during the year was twenty-five. The cost for the year in the first division was \$25 in the first class, \$26.25 in the second, \$31.25 in the third and \$45 in the fourth. In the second di-

vision it was \$10 in the first, \$10.50 in the second, \$12.50 in the third and \$18 in the fourth. The total cost of membership since the beginning of the order is \$209.70, or \$9.95 per \$1,000 in the first class, \$326.10 or \$10.47 in the second, \$391.30 or \$12.58 per \$1,000 in the third and \$590.60 or \$18.98 per \$1,000 in the fourth. The report of the grand treasurer, Mr. T. P. Houghley, made a similar financial showing.

The grand lodge proper met this morning with a large attendance.

Grand Master Wildman reported that for causes familiar to all the order has not attained any greater strength in membership during the year. He further called attention to the proclamation of Henry P. Garry, of Baltimore, grand sire of the Sovereign grand lodge, prohibiting Old Fellows from retaining the membership in the Patriarchal circle after January 1, 1886.

Grand Secretary Foster in his report showed that there were now 544 lodges in the state with a membership of 26,592 and during the year 1,515 brothers and 182 widowed families have been relieved. The resources of the lodges were \$1,459,953.55; receipts for the year, \$124,278.22; expenses, \$57,841.02; the total expenditures for relief and charity, \$45,575.79. The report of the grand treasurer, Mr. T. P. Houghley, showed that in addition to this the lodges had 1,312 shares of Grand lodge stock, valued at \$32,900. The Grand Lodge hall trustees reported receipts for the year amounting to \$4,762.58, and dividends paid during the year amounting to \$2,160.

The Patriarchal Circle and the Uniformed Degree, orders of the Old Fellows, have been consolidated into the Patriarchal Militant. The first-named order has always been repudiated by the Sovereign Grand Lodge as not connected with Old Fellowship proper, and this has caused considerable feeling in the past. By an order of the lodge, which is referred to above, all Old Fellows who persist in holding their membership in the Patriarchal Circle after January 1, will be expelled.

General Manager A. A. Talmage, Master of Transportation K. H. Wade, Supt. of Motive Power and Machinery J. B. Barnes, Superintendent George Stevens, Supt. Car Department M. M. Martin and other moguls of the Wabash arrived here this afternoon in a special car from the west. The distinguished party made an inspection tour of the shops here. Master Mechanic Morris escorted them through.

"Holiness" Among Southern Methodists.

A prominent Methodist layman said yesterday, "You are going to see serious trouble come from the 'holiness' movement. I do not refer so much to its evil effects on individuals, which have already been great and will be worse, but to the disorganizing influence it will have on the church. The present spirited discussion among prominent ministers on the subject only foreshadows a severer contest that is bound to come in the councils of the church. I think those who profess the 'holiness' theory will be carried further and further in their peculiar notions, until some declaration of the doctrine of the Methodist Church on the question of sanctification will be made by the General Conference. There is hardly a possibility that any declaration by the sober sense of the church on this question will meet the views of the organized 'holiness' people. Many of them are so enthused with their dogmas that they will never surrender it, and a schism in the church will be the result."—*Atlanta Constitution.*

**Farragut's Conversion.**

When a boy once learns that there is nothing manly in imitating the vices of men, he has made a long stride in wisdom. Moreover, he may count himself among the fortunate, if he learns it so early in life that the pursuit of foolish and wicked pleasures does not practically injure his future career. Admiral Farragut tells this story of his own boyhood:

"When I was 10 years old," he says, "I was with my father on board a man-of-war. I had some qualities that, I thought, made a man of me. I could swear like an old salt, could drink as stiff a glass of grog as if I had doubled Cape Horn, and could smoke like a locomotive. I was great at cards, and fond of gaming in every shape. At the close of dinner, one day, my father turned everybody out of the cabin, locked the door, and said to me: 'David, what do you mean to be?'"

"I mean to follow the sea."  
 "Follow the sea! Yes, to be a poor, miserable, drunken sailor before the mast; to be kicked and cuffed about the world, and die in some fever hospital in a foreign land."  
 "No, David; no boy ever trod the quarter-deck with such principles as you have, and such habits as you exhibit. You'll have to change your whole course of life if you ever become a man."

"My father left me and went on deck. I was stunned by the rebuke, and overwhelmed with mortification. 'A poor, miserable, drunken sailor before the mast! Be kicked and cuffed about the world, and die in some fever hospital! That is to be my fate,' thought I. 'I'll change my life, and change it at once. I will never utter another oath; I will never drink another drop of intoxicating liquor; I will never gamble.' I have kept these three vows ever since. Shortly after I made them, I became a Christian. That act was the turning point in my destiny."

Even from its lofty minarets the philosopher may summon the faithful to prayer, and the priest and sage exchange altar without the compromise of faith or knowledge.—*Sir David Brewster.*

**CATARH.**

Is a very prevalent and exceedingly disagreeable disease, liable, if neglected, to develop into serious consumption. Being a constitutional disease, it requires a constitutional remedy like How's Catarrh Remedy, which acting through the blood reaches every part of the system, effecting a radical and permanent cure of catarrh in even its most severe forms. Made only by C. I. Hood & Co., Lowell, Mass.

What is more annoying than a sick stomach? Nichols' Bark and Iron is the only sure remedy. Its tonic and invigorating properties are unequalled. 28-47

**"ONLY A WOMAN."**

A Picture Vivid With the Actual Contrasts of Life.

Catherine V. Gregory, for thirty-eight years a public school teacher in New York city, died last month, physically "a complete wreck—the result of teaching in the public schools for twenty-two years, and, as I am informed, never missing a day during that period until she had to give up from sheer exhaustion last spring."

**DANIEL E. McSWENNEY, M. D.**

Dr. McSwenney, commenting on the case to the *World* reporter, said: "This teacher was allowed to go into service when she was 16 years old. She was in good health, but dependent parents kept her at work without a respite. For twenty-two years she never failed to be at her desk and never lost an hour. The hard work and anxiety gradually undermined her health, and when she came to me, she was a physical wreck. During the last few years I have had scores of such cases. Many break down and are driven from the service, while others are ambitious to succeed and give up only at death's door."

This is a sad and illustrative case. Thousands of women in dependent positions literally work their lives out in the struggle for existence. The wan face, the wearied expression, the bloodless pallor, the depressing headaches, cold feet, hot heads, sickle appetite and decreasing vigor, all are ignored, for "they must have bread or starve."

"A sad, and world, my masters." Women does not bear the brunt of toil as among savages, but under what physical burdens she toilers, none but herself can know.

Husbands do not realize it, they think it is natural and inevitable for their wives to be ill, but what a mistake! What a mistake!

Mrs. M. J. Lang, of 146 Wellington street, west, Toronto, Canada, was in such a state, utterly broken down with a complication of the very worst sort of female disorders, she looked only to death for release and relief. Physician after physician was appealed to in vain and just as despair prevented itself a faint hope dawned upon her. She followed the counsel of her sister women, gave herself thorough constitutional treatment with Warner's safe cure, and now she says: "I am as healthy as if I had never been one day ill. In August, 1893, I had my last attack, and since that time I have never had a physician visit me. I am the very picture of health." She was ill for years, but not bed-ridden; local operations made life a constant trial. Burning pains in the stomach and back, relieved only by vomiting and harsh measures, were followed by hot head, cold feet and limbs, sore abdomen, ending in occasional paroxysms of great agony.

John L. Elsworth, M. D., of Brooklyn, N. Y., a graduate of Wurzberg, Germany, says of this preparation that "it is particularly valuable in the treatment of female complaints," and such disorders.

Senator W. B. Miller, of Cape May, N. J., commends its beneficial effects on his wife, when other remedies seemed to have no good results.

Such opinions, coming from painful experience, ought to be persuasive of the fact that women have at their command an effective means of release from their terrible bondage, which it is their solemn duty to employ if thereby they desire to prolong existence in "This vale of bitter tears."

Scientific people assert that the modern flashlight is composed almost wholly of potato.

**Nip't in the Bud.**

Had to say, many a good thing attains to nothing more than a fair beginning. On the other hand it is a matter for congratulation that the growth of some evil things may be also promptly frustrated. A large proportion of the cases of the most wide-spread and fatal of diseases—consumption have their inception in nasal catarrh. Dr. Sage's Catarrh Remedy is pleasant, soothing and effective. Try it. It has cured thousands. All druggists.

Last year the scalpers sold \$24,187,651 worth of railroad tickets.

**Coughs and Colds.**—Those who are suffering from coughs, colds, sore throat, etc., should try Brown's Bronchial Trochets. Hold only in boxes.

## SIMMONS LIVER REGULATOR

For all Diseases of the Liver, Kidneys, Stomach and Spleen.

This purely vegetable preparation, now so celebrated as a Family Medicine, originated in the South in 1878. It acts gently on the Liver and Kidneys and corrects the action of the Liver, and, therefore, the best preparatory medicine, whether the action may prove to be in all common diseases it will, unaided by any other medicine, effect a speedy cure.

The Regulator is safe to administer in any condition of the system, and under no circumstances can it do harm. It will improve the appetite or stoppage of food, and give a glass of wine, but is no intoxicating beverage to lead to intemperance; will promote digestion, dispel flatulence, and generally tone up the system. The dose is small, not unpleasant, and its virtues unobscured.

No loss of time, no interruption of business while taking the Regulator.

Children complaining of Colic, Headache, or Sick Stomach, a teaspoonful or more will give relief.

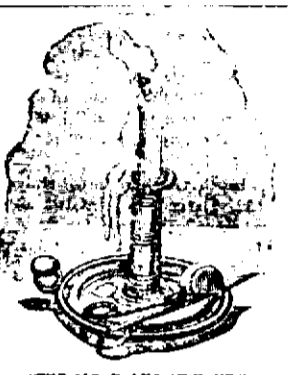

If taken occasionally by patients exposed to MALARIA, it will expel the poison and protect them from attack.

**A PHYSICIAN'S OPINION.**

I have been practicing medicine for twenty years, and have never been able to put up a vegetable compound that would, like Simmons' Liver Regulator, promptly and effectively move the Liver to action, and at the same time act instead of weakening the digestive and assimilative powers of the system. ## WHITE SEAL BURNING OIL

The New York board of health estimates that 3,000 lives have been destroyed by the explosive quality of petroleum. If every household would adopt the White Seal Burning Oil, some of these unfortunate accidents would occur.

**WHITE SEAL BURNING OIL** has none of the defects usually found in common oils. It cannot be exploded, does not char the wick, will not smoke, and is so odorless and clean that it prevents the breaking of chimneys.

**WHITE SEAL BURNING OIL** is a rich oil for illuminating purposes. It is as light in color as pure spring water. It gives a strong steady light, and burns much longer than common oils.

If the White Seal Burning Oil is not sold in your vicinity, send your order direct to us for a barrel or a case containing two neat five gallon cans.
